SUBJECT: DOT and DNR Communications Tower Use

EFFECTIVE DATE: Ongoing

It is the policy of the Wisconsin Department of Transportation (DOT) to allow for the attachment or installation of antennae and associated appurtenances to agency owned tower facilities by and in the following priority order: state agencies; state educational institutions; local, county, and federal governments; publicly owned utilities; cooperatives and other non-profit organizations having a mission to serve the citizens of Wisconsin.

The Department may also lease tower and associated space to commercial enterprises when the approval of the request will clearly serve the interests of the Department and the State of Wisconsin and the priority order has been met.

The Bureau of Public Security and Communications Engineering Section Chief shall receive formal requests for use of DOT tower space and associated facilities, and respond to those requests with guidelines and procedures that must be followed to receive further consideration of their request.
